

-- Apple-Stamped Butterflies --

This craft is great to do with your toddlers! Little ones as young as two can help paint the apples and make their own designs.

Supply List:

- Apples
- Paint in various colors/paint brushes
- Paper
- Markers

Step 1: Cut apple in half.

Step 2: Either 'paint' the inside/cut side of the apple with colors of your choice, or simply pour out the paint on a paper plate and place the cut side of the apple directly in the paint. Make sure the paint is covering the whole side of the apple so that you can make a nice clear butterfly 'stamp'.

Step 3: Stamp your apple directly onto your paper.

Step 4: Use the marker to add antennas to make your apple butterfly take flight!
