

## -- Pirate Ship --

Aargh matey! Make a front-of-the-fridge worthy pirate ship with supplies from around the house.

### **Supply List:**

- Two different shades of blue construction paper
- Brown construction paper
- Craft sticks
- Marshmallows – sliced lengthwise
- Round cereal

Step 1: Use one blue sheet of construction paper for the base of your project. Make a simple 1-2 inch wave from the other blue paper, and glue to bottom of paper.

Step 2: Cut a boat from the brown paper, and glue it to the wave.

Step 3: Glue craft stick masts on the boat. Next, place the pre-cut marshmallows with the sticky side down as sails. No glue needed, because they will stick by themselves. Step

4: Glue cereal portholes on the boat. Don't forget to eat a few marshmallows and some cereal along the way!
