

## *Union Team Donate (UTD) News* August 2010

**I'm Back !** I want take this opportunity to **thank** all of those who took the time out of their busy schedule to call, send cards and flowers and visit me while I was in the hospital and recovering at home. The list is very long, and I do not want to offend anyone I might leave out, but members of our Union Team Donate (UTD) program and Friends of Working Families were a big part of giving me a positive attitude in my recovery. My family and I truly **thank you** for the love and concern you gave us during this difficult time.

*Life is truly a blessing and wonderful.*

Now back to community busy our local.

As we all know these a still difficult times in both our country, our state and our communities. Our local When The Paycheck Stops program as to date made numerous union presentations to union memberships and distributed over 17,000 copies of our local Sacramento Valley When The Paycheck Stops booklet. Local non-profit organization who provide services and programs, many dropped by state and municipal programs are also feeling the pressure of the down turn in our local economy. Remember, our local United Way-AFL-CIO Community Services Office and those non-profit organizations provide services for Working Families many who are members of one of our local unions.

Please remember your local United Way 2010-2011 Campaign. Your donations go to building a stronger, healthier and more compassionate community. For more information on how you, your company or local union have a Union Way presentation on our local community programs or participate in a local United Way giving programs , please call Tom Lawson at your local United Way (916) 368-3018 or (916) 927-9772 ext. 224. at the Sacramento Central Labor Council.
