We're at it again! Join the Young Leaders Society on September 30<sup>th</sup> to help write notes to students in the Robla School District!

This year, Young Leaders Society supporters have raised \$27,000 to prioritize students' health needs through the YLS Hydration Station Initiative. Part of this funding will be used to buy each student in the Robla School District their own reusable water bottle. Inside, they will find educational flyers related to healthy hydration and drought awareness. **But, even more special will be the note they find inside from YOU – the Young Leader who made their hydration stations and water bottles a reality.**

Join the Young Leaders Society on September 30<sup>th</sup> to help write notes to Robla's students. Words of encouragement, inspirational quotes, and even health/fitness tips will help brighten the day of each student when they receive their water bottle in a few months. We'll provide all the supplies, and keep you fueled with food, and beer and wine. [RSVP today!](#)

Help prepare water bottles for students! The YLS Hydration Station Initiative is working to fight childhood obesity through increased water consumption in schools. This winter, five hydration stations will be installed at Robla School District in Sacramento. Additionally, each student in the district will receive a reusable water bottle with health information inside. **Young Leaders Society supporters are making this project a reality, and we need your help again!**

**Join us at the YLS Hydration Station Volunteer Night on November 5 to help prepare more than 2,500 water bottles for elementary schools students at Robla.** We'll need help organizing and stuffing the water bottles with educational materials and the inspirational notes from YLS volunteers. Snacks and beverages will be provided! [RSVP today.](#)
